Clarelen Orchids

Since 1930

Dr. C. K. Schubert and Sons
Fox Bluff on Lake Mendota
Waunakee, Wisconsin, U. S. A.

PHALAEOPSIS SEEDLINGS

These three numbers represent a step in the direction of producing very heavy pink Phalaenopsis.

S 494

P. Doris 'heavy pink' X P. Plaisance 'pink cloud'

The P. Doris used was selected for its pink flushing and the P. Plaisance for its even pink coloring and heavy substance.

Shipped Bare Root, \$1.00 ea.

S 493

P. Plaisance X P. Doris 'pink tint'

The same P. Plaisance as in S 494 on a different P. Doris. Both of heavy substance and evenly tinted.

Shipped Bare Root, \$1.00 ea.

S 462

P. DuBuyssoniana X P. Doris

The DuBuyssoniana has bright crimson-purple sepals and petals. The lip is a scarlet-ochre. It has very fleshy substance. The P. Doris is very large and full. This cross should produce flowers with remarkable future breeding possibilities.

4" to 5" Leaf Spread, \$5.00 ea.

Minimum order of \$10.00 on all seedlings.

BIFOLIATE SEEDLINGS

S 511

C. Chamberlainiana var. Ruddy Chocolate

C. Guttata

var *Leopoldii*

C. Dowiana

X

Lc. Belmont var. *Atlas*

C. Granulosa

Lc. Rabeiana

C. Chamberlainiana is an extremely dark reddish chocolate flower. *Lc. Belmont* has heavy substance with dark reddish petals and sepals. The lip is full and dark. Shipped Dry Root, \$1.00 ea.

S 445

Lc. Profusion X *Lc. Belmont*

This cross uses the same Belmont as S 511 and should produce a variety of medium dark flowers of heavy substance with very full lip structure.

2" Pots, \$3.50 ea.

S 515

Lc. Princess Margaret X *C. Chamberlainiana*

Lc. Princess Margaret is a large heavy flower with bright yellow eyes. The same *C. Chamberlainiana* as in S 511, should give deep color particularly since its lip is normally almost black.

Shipped Dry Root, \$1.00 ea.

SEEDLINGS

Minimum order of \$10.00 on all seedlings.

MATURE BIFOLIATE CATTLEYAS

S 166

C. Granold

C. Harold alba

C. Granulosa

Ranges from flushed white to chartreuse green with very dark semi-spatulate lips. Heavy substance.

\$15.00 ea.

S 231

Lc. Kencolor

Lc. Kenosha

C. Bicolor

A white with purple lip Lc. Kenosha crossed with C. Bicolor. The color ranges from pale lavender through olive, green and yellow. The substance is heavy and all have a dark semi-spatulate lip. Excellent breeding stock to obtain the ultimate "green cattleya".

\$20.00 ea.

S 395

C. Phillips

C. Beloit

C. Loddiglossa

Guttata

Hardyana

Loddigesii

Amethystoglossa

With this background of species a wide variation is to be expected. Many years of breeding in this cross have gone by in an attempt to produce material for something new to carry on. A few have flowered for the first time this season. All are large plants and every flower has been a pleasant surprise. Colors have ranged thus far from a beautiful clear pale pink to medium dark lavender with speckled petals and sepals. It would be better to ship unflowered specimens to avoid previous selection.

\$15.00 ea.

MATURE BIFOLIATE CATTLEYAS

Clarelen Orchids has one of the largest collections of bifoliate orchids in the world and is a pioneer in crosses of this type including the famous Clarelen "Cocktail Orchids". (R)

Below is a listing of the very finest to be obtained.

COCKTAIL ORCHIDS (R)

S 41

C. Audry Schubert

C. Loddigesii

C. Annie J. Lines

A glorified *Loddigesii*, and very much larger. The colors range from a medium phlox to dark phlox. Excellent for future breeding to give very heavy substance and a wide range of colors.

\$20.00 ea.

S 88

Lc. Belmont

C. Granulosa

Lc. Rabeiana

One of the few bifoliate crosses in which the spatulate lip tendency is completely lost. The flower is full, heavy, and has a beautiful dark lip. *C. Granulosa* imparts the heavy substance.

\$25.00 ea.

S 140

C. Antigo

C. Fabulous

C. Granulosa

The peer of all bifoliate! See page 254 of the April 1958 issue of the American Orchid Society Bulletin. Extremely dark petals and sepals, lip semispatulate. Compared to "Ridgeway's Color Standards and Nomenclature" the color is a "Dahlia-Carmine". The surface has a glistening sheen finish which under artificial light actually glows.

\$35.00 ea.

MATURE CATTLEYAS

S 74

Lc. Golden Madonna

A beautiful yellow with a wine throat. Colors range from canary yellow to yellow with a slight reddish tint. The deep wine throat is truly impressive. The flower also has a very pleasant fragrance.

\$30.00 ea.

S 122

Lc. Hazel M. Joseph

One of our finest Lc. Red Oak crosses. The other parent being C. Raphaeleda. Very heavy in substance, it ranges in color from red to magenta. The eyes are a striking yellow which contrast beautifully with the petals and sepals.

\$35.00 ea.

S 141

Lc. Red Tower

The "King" of the Clarelen ranges. A superb grower which with good care will throw from four to seven flowers on a single spike! The flowers are of excellent quality, and have a heavy substance. The petals and sepals are phlox-purple. The lip is dark and full with an "old gold" colored throat blending into bright yellow eyes. Special plants for breeding selected on application.

\$50.00 ea.

S 142

C. Yahara

An outstanding Cattleya ranging in color from rose-purple to deep phlox petals and sepals with a dark purple lip and bright yellow throat.

\$30.00 ea.

S 248

Lc. Elderon

A lively brilliant phlox colored Laeliocattleya with a deep colored round lip accented by bright yellow eyes and throat. Exceptional form.

\$35.00 ea.

TERMS OF SALE

- This catalog cancels all previous lists and special quotations.
- Plants are packed in corrugated cardboard cartons and on arrival should be examined first and then signed for. Notify the express company if there is any damage, and file your claim immediately with them.
- All plants offered were raised by Clarelens Orchids; they represent the best that modern botanical science can produce. Our utilization of the most efficient large scale methods enables us to price the plants so that all may obtain a wide selection of these outstanding orchids.
- Our many friends in Hawaii, Puerto Rico and other overseas countries may wish to specify air mail shipments. The new air mail rates allow shipping costs to be reduced materially. You will find the service to be faster and more satisfactory than air express, although of course, we will ship by any method you specify.
- Shipments within the United States will be sent via Railway Express collect and out of pots unless otherwise specified.
- We plan to issue additional price lists during the season, each devoted to single groups of genera. These more complete lists will include plants available in limited quantity. Our stock of choice Cymbidium and Cattleya hybrids is very large. Those listed in this catalog are only a sample of the forms which are available in abundant numbers. In addition, we have many varieties with only two or three plants of each. If you do not find what you wish in this catalog, please write us for a special quotation on your particular needs.
- All plants are offered subject to prior sale. Terms: cash with order; packing free of charge; shipping costs extra. For overseas shipments, time will be conserved if you will include estimated shipping costs with your order.
